2027

Sponsorship Application

New for the 2027 Sponsorship Season, (October 1, 2026, through July 1, 2027)

With your first order, Riders will receive shop decals for their trailer and an assortment of smaller decals for other uses.

All graphic designs will go through email. Once your design(s) options are ready you'll receive an email with your designs. Changes can be made, simply email the changes you'd like to make, and you'll get another email to look at the changes. If you like the design(s), you can approve the design(s) by emailing back your approval. Once the approval gets back to us, your graphics will be printed and either shipped to you or we'll gladly put them on for you, if you come to the shop.

Please do not send anything of importance through Facebook Messenger or texted messages. Text messages are good for "Hey I sent you an email" or "I have questions" those types of things. Messages don't always go through, and it causes chaos.

Make sure to like and follow us on social media @thesavagedesign for special events, race updates, giveaways, and rider only giveaways.

All our contact information is listed above.

2027 Sponsorship Requirements:

Most important requirement, you cannot have a competing company as a sponsor.

Put those decals on everything. If you need more, let us know. We always have them at the track.

Tag us in all your rider's posts, even if it doesn't have to do with racing. We don't always race either. Tag us so we can see what other sports and crazy things you're into. We might just repost and share your pictures and videos.

Tagging us in a race report or a social media post so we know how you did. You can email or text Heather and she'll put it on your account.

If you're at the same race as us, please stop by the pits and hang out.

If you have an order placed and are going to be at the track, we will gladly bring it on race day.

Riders will be able to download any photos and videos that Heather takes at the track for free. Those photos can be found at <https://asideofsavage.smugmug.com/>

If you need help at the track and we're there come to our pits or call if the service is good. Rider Support is always available.
